Education

Indiana University Bloomington Expected May 2027
B.S. in Computer Science, Cognate in Artificial Intelligence *Bloomington, IN*

Relevant Coursework: Applied Algorithms, Principles of Machine Learning, Data Analysis and Mining, Statistical Inference.

Technical Skills

Languages: Python, TypeScript, JavaScript, SQL, C, Swift
Web & Data: Next.js, React, Tailwind CSS, REST APIs, Windsor.ai, Vercel, Supabase, PostgreSQL, Scikit-learn, Pandas, NumPy
Developer Tools: Git/GitHub, VS Code, Xcode, Jupyter, OpenAI Codex, Claude Code
Media: DaVinci Resolve, CapCut, Adobe Creative Suite, professional camera operation

Technical Projects

PatsMemoir Creator Analytics Dashboard *TypeScript, Next.js, React, Windsor.ai*

- Built and deployed a Next.js dashboard that integrates **2 platform data sources** through the Windsor.ai REST API, combining YouTube and TikTok analytics in **7- and 30-day** reporting windows.
- Implemented server-side API adapters with a **1-hour cache**. Normalized views and interactions into shared TypeScript types to calculate view-weighted engagement across channels.
- Validated missing fields, zero activity, reporting boundaries, and partial API failures with **9 automated tests**. Incomplete channel periods are excluded from combined metrics.

Student Performance Prediction *Python, Scikit-learn, Pandas*

- Modeled final math grades using **395 UCI student records** from two schools. Excluded earlier grades to test prediction before those results were available and omitted absences with uncertain timing.
- Reserved **79 test records**, then compared **19 configurations** using **4-fold cross-validation** on 316 training records. Fitted scaling and categorical encoding separately within each training fold.
- Selected Ridge regression without polynomial interactions. On the reserved test set, it reduced **RMSE from 4.55 to 4.15 grade points** against a training-mean baseline on a 0–20 scale.

Experience & Leadership

National Society of Black Engineers Jan 2026 – Present
President, Indiana University Chapter *Bloomington, IN*

- Manage an **11-member executive board** serving **30+ chapter members**; organized professional development events with Accenture and Clearwater Security.
- Led finance-team outreach supporting **$5,000+ in sponsorships**; co-developed a sponsorship package, sent targeted cold emails, and cultivated alumni relationships.
- Created a five-stage event-planning guide and introduced officer-led events, standardizing task ownership, deadlines, budgets, readiness checks, and post-event follow-up.

PatsMemoir Jun 2025 – Present
Founder & Content Creator *Bloomington, IN*

- Built audiences of **20,000 TikTok** and **2,500 Instagram followers**; generated **7.9 million TikTok views** in 12 months, including 4.7 million in 28 days.
- Used AI-assisted transcript comparisons and audience analytics to refine three-second video hooks; multiple videos reached **500,000+ views** after the changes.
- Film and edit with professional cameras, DaVinci Resolve, and CapCut; scheduled daily video ideas with Claude.

RAISED LLC 2025 – Present
Founder *Bloomington, IN*

- Sold out a **50-unit launch within days**, generating **$3,000+ in revenue** through influencer, social media, and word-of-mouth marketing.
- Customized a Shopify storefront with code and managed Postscript SMS and Shopify email campaigns for lists of **100+ SMS** and **70+ email subscribers**.
- Compared and negotiated offers from **10+ overseas manufacturers**; coordinated a nine-page tech pack and samples, and used costs, margins, and conversion rates to plan future inventory.
